

16) How do I make changes to my Shopping Cart?

Wednesday, 13 September 2006

You can always add or remove items from your Shopping Cart. Just click on "View Cart" and you will see a list of what is in your cart. On this page you can, if you want to, change the items or quantity of items in your Shopping Cart in any way. You can then click on "Continue Shopping" or "Continue Checkout". Clicking on either of these buttons will automatically update your Shopping Cart to reflect any changes you made.
